# WHY SAFEMEDALERT<sup>®</sup> ???

## DID YOU KNOW?

- In a HOME EMERGENCY, over 90% of the victims were NOT within reach of a phone.
- The risk of STROKE doubles every 10 years at age 55. 65 is TWO times, 75 is FOUR times, 85 is EIGHT times!
- Every MINUTE that a stroke victim goes UNATTENDED, the chance of permanent disability or death increases dramatically!
- FALLS are the leading cause of 'Injury Death' to Americans 65 and older.
- The National Heart Association reports that 350,000 of the 1.6 million Americans that suffer from heart attacks DIE BECAUSE HELP DOES NOT ARRIVE IN TIME.
- 50% of WOMEN over 50 will have an osteoporosis-related fracture.
- The National Safety Council reported that over 3 million people will sustain disabling injuries in or around their home; more than 100,000 will be permanently disabled.
- U.S. Government studies estimate that at least 260,000 of the 1 million people over age 65 in nursing homes don't have to be there – AND DON'T WANT TO BE THERE!
- Emergency Response Systems have been proven to EXTEND ONE'S ABILITY TO LIVE AT HOME, INDEPENDENTLY, AN AVERAGE OF SIX additional years.

## TESTIMONIALS

I am 71 and have Parkinson's. On Easter Sunday, I fell from bed and lay helpless for 16 hours. Thank God for my neighbor. I was in Intensive Care for 3 days, and 4 days in Rehab. I got my **SAFEMEDALERT** on my first day home and I have used it more than once. My advice is *DON'T WAIT, GET YOUR BUTTON NOW, I WAS LUCKY!*  
*DorothyP*

My Dad is 89 years old, and even though he lives close by, I still worry. He is wobbly and has fallen in the past. When I heard about **SAFEMEDALERT**, knew this was it. After seeing how it works, I rented another one for my home, my husband has a heart condition and I travel frequently. It gives me a real **SENSE OF COMFORT** knowing that both my guys are taken care of and have help immediately available.  
*NancyW*

I am a 36 year old mother of 3, and have MS. My **SAFEMEDALERT** console was a gift. Just knowing it was there, I felt more confident. Recently, I fell, hit my head, and was dizzy. I did not want the EMS squad. I hit my button and explained my situation. She contacted my Aunt, and **STAYED ON THE LINE** till my Aunt arrived. The operator was really, really nice.
